

<p><b>Our Vision: Nature loved by all and thriving.</b></p>	
<p><b>Our Purpose</b> To advance nature conservation by raising funds, creating community partnerships and implementing sound science.</p>	
<p><b>Who we are</b> Nature Foundation SA is an apolitical, fund-raising, nature conservation charity that works on our own nature reserves and throughout South Australia to connect with and inspire others to save, protect, restore and sustainably manage South Australia's natural heritage.</p>	
<p><b>Our Roles</b></p>	<p>Nature conservation leader Community motivator Nature conservation land holder Fundraiser and funder Nature science advocate</p>
<p><b>Our Values</b> We believe...</p>	<p>... nature is at the core of all we do ... people and their diversity matter ... in using resources very well ... collaboration achieves more ... in being passionate and positive ... in being curious and innovative</p>
<p><b>Our Objectives</b></p>	<p>Protecting and restoring more ecosystems and landscapes over a greater area Amplifying the funds and resources to advance nature conservation Involving more people and local communities in nature conservation Managing nature with ever improving scientific knowledge and innovation Working towards best practice ecological and cultural management Continuously improving governance standards</p>
<p><b>What Drives Us</b></p>	<p>The critical need to create a future for species and ecosystems The need to generate funds to undertake nature conservation research The escalating impacts of climate change Increasing population and development pressures on the environment Conservation as a declining political priority The increasing need for conservation on private land The need to collaborate to do more with less The possibilities created by the rise of new technologies The opportunities created by emerging carbon and water economies The rising need for society to value nature, both for societal and environmental wellness</p>
