

# Witchelina Grand Working Bee

27<sup>th</sup> – 30<sup>th</sup> April 2017

The Nature Foundation SA Witchelina Grand Working Bee will be held over four days from Thursday 27<sup>th</sup> – Sunday 30<sup>th</sup> April, with Wednesday and Monday allocated as travelling days. Witchelina Nature Reserve is located in the northern Flinders Ranges 700km north of Adelaide. Previous Grant Working Bees have attracted volunteers from their teens to people in their 80s and from all walks of life, uniting everyone with a real passion for nature, conservation and appreciation of the spectacular SA outback.

NFSA will provide a 'tag along' tour of the property and dinner each night for our willing and much appreciated worker beez, with a small \$50/pp charge to help cover costs. It's BYO camping facilities or you can nominate for a bed in the Shearing Quarters (limited space).

Participants will have the opportunity to:

- Contribute to vital conservation and property maintenance work;
- Bring skills, enthusiasm and a sense of adventure
- Meet like-minded people and have fun

We'd love you to join us – contact Nature Foundation SA for further information or to book your place. Get in early....
